

## **MOTHER EARTH NEWS Archive Viewing Instructions**

Thank you for purchasing the *MOTHER EARTH NEWS Archive*. To enable users to view this archive on as many devices possible, the archive on this disk is provided in the MOBI format (for most Kindle devices) and the EPUB format (for all other mobile devices and your PC). There are dozens of options for viewing this archive and the following are just a few recommendations. For additional technical support please e-mail [customerservice@ogdenpubs.com](mailto:customerservice@ogdenpubs.com).

First, transfer the desired files from this disk to your hard drive. If you don't think you will be viewing the archive using Amazon's Kindle or the Kindle app, then you don't need to transfer the MOBI version of the archive.

### **For reading the *MOTHER EARTH NEWS Archive* on your PC or other e-reader device:**

Viewing the archive on your PC without an Internet connection requires an e-book management application. If you don't know if you already have such an application, try opening the file by double-clicking and letting your operating system check for a relevant application. If you don't have one, we recommend downloading a free application such as [Adobe Digital Editions](#) or [Calibre](#). Once installed, follow the instructions for adding files to your new e-book library. Both of these applications also allow you to sync your archive files to a variety of portable e-reader devices. Please note: For reading this archive on your Apple, Android or Kindle device, please continue reading. For information on device support and other information, please check out the following:

Adobe Digital Editions: <http://blogs.adobe.com/digitalpublishing/supported-devices>

Calibre: <http://manual.calibre-ebook.com/faq.html#what-devices-does-app-support>

### **For reading the *MOTHER EARTH NEWS Archive* on your iPhone, iPad or iPod (iOS):**

We recommend using iTunes to manage the archive viewing on your iOS device. If you currently use an Apple device you are likely already set up on iTunes. If not, [click here](#) to download iTunes for free.

Once installed, you can add the archive files to your iTunes library by selecting "Add File to Library ..." in iTunes.

To view the archive on your iOS mobile device you will need to install Apple's iBooks app from the app store. Once installed, you can sync your iTunes e-book library to your device and view books using the iBooks app.

### **For reading the *MOTHER EARTH NEWS Archive* on your Android device:**

The Android app store features hundreds of e-reader apps. To determine the best way to transfer the archive, you will need to contact the developer for whichever app you decide to use.

We recommend the Kindle e-reader app for Android. To read the archive via this app, transfer the MOBI version of it to your hard drive. Next, download the Kindle app for Android from the Android app store and then connect your Android device to your PC. Your device should show up on your PC as a new hard drive. Open the drive and locate the Kindle folder. Drag and drop the MOBI versions of the *MOTHER EARTH NEWS Archive* into the Kindle folder and safely eject your device. You should then be able to view the archive within the Kindle app for Android on your device.

### **For reading the *MOTHER EARTH NEWS Archive* on your Kindle:**

Transfer the MOBI version of the *MOTHER EARTH NEWS Archive* to your hard drive. Next, connect your Kindle to your PC and follow the instructions for adding the archive files to your Kindle library.
